- Annual Storage paid in advance. State Sales tax is applicable to storage charge.
- Storage rates paid yearly, in advance, are subject to change at renewal dates only.
- Boats will be measured overall from transom or engine mounts to a pulpit or anchor davit. LOA will determine which category your boat falls in. Boats that are larger than specified will be charged accordingly, and may end up being too large to fit inside.
- Boats with fixed keels or that requires custom chocking will be charged the maximum rate obtainable in that rack.
- *Abnormal or special handling; any boat with T-top, hard top, tower, express bridge, fly bridge, over 8' beam or 5' 11" length must be charged special handling rate for inside storage.
- **Subject to availability as there are a very limited number of travel lift boats that can be accommodated. Therefore, only annual contracts will be offered for travel lift boats with only two movements provided with the contract. Space is not guaranteed unless annual contract is signed.
