07FA - RUNWAY AND PARKING

AIRPORT TERMINAL HOURS:

November-April: 8AM-6PM. May-October: 8AM-5PM

GENERAL CONDITIONS:

Parking is extremely limited at Ocean Reef Club Airport. All parking is available on a first-come, first-served basis.

PARKING:

Grass Parking:

Reserved for all CAT 1 and CAT 2 Aircraft types and helicopters. North Ramp parking is subject to availability and is not guaranteed for CAT 1/CAT 2 aircraft. Aircraft tie-down cables run the length of the Grass Parking area. The coned off area is reserved for helicopters.

North Ramp:

Reserved for propeller driven aircraft CAT 3 and larger in addition to the parking for these aircraft. The North Ramp is also used for jet overload parking. Helicopters requiring fuel are to utilize the North Ramp for fueling operations and return to the Grass Parking post fueling.

South Ramp:

Reserved for jet aircraft, jet aircraft parking, and aircraft utilizing the Airport's GPUs. Emergency response helicopter operations are performed here.

RUNWAY:

No Turn Areas:

Turning in front of the Barracuda Business Center and in front of the Airport Terminal is strictly prohibited. Turns should be performed at either end of the runway.

No Holding or Run-ups:

Holding or performing run-ups at either end of the runway is strictly prohibited. Holding and run-ups are to be performed in the aircraft's parking space.
