

# TEMPERATURE CHECK GUIDELINES

## EQUITY MEMBERS

Should your temperature be 100.4F or above you will be asked to self-quarantine with no access to Club amenities, including restaurants while you have a temperature.

## SOCIAL MEMBER COMING FOR THE DAY

Should your temperature be 100.4F or above you will not be granted access to the Club through any entry point.

## SOCIAL MEMBERS STAYING OVERNIGHT AT THE INN OR VACATION RENTALS

Should your temperature be 100.4F or above, you will have two options:

1. Not enter the Club. (You will not be charged for a room cancellation.)

OR

2. Stay self-quarantined in your guest room with no access to any Club amenities, including restaurants. The next morning, you must have your temperature re-checked. If you still have a temperature reading of 100.4F or above, the Club will require your departure at that time. (You will not be charged for any additional nights on your reservation.) We strongly urge you to seek medical attention.

## MEMBER ACCOMPANIED GUESTS OR SOCIAL MEMBERS STAYING AT THE HOME WITH AN EQUITY MEMBER

Should your temperature be 100.4F or above, you will be asked to self-quarantine at that home and will not have access to any Club amenities, including restaurants.

Additionally, the Equity Member will be notified and asked to ensure that their Guests comply with the above guidelines.

Subject to temperature re-testing, access to Club amenities will be restored.

## CDC RECOMMENDATIONS

Per the CDC website, if you have a fever, cough or other symptoms, you might have COVID-19. Most people have mild illness and are able to recover at home. If you think you may have been exposed to COVID-19, contact your healthcare provider. Keep track of your symptoms and if you have an emergency warning sign (including trouble breathing), get emergency medical care immediately. For more information, visit [cdc.gov](https://www.cdc.gov).
