Friday, July 24, 2020

Dear Member,

For this week, The Medical Center has separated the older positive cases into a dedicated "Historical" category and left the recent positive cases in a category called "Active". This is to assist Members in understanding the most current community status. The tracking grid has been updated to reflect this change below.

COVID-19 Dashboard as of: 07/24/20 3:00PM Total

	Total
Pending Lab Results	5
Negative Lab Results	31
Active Positive Results: (within the last 10 days)	2
Historic Positive Lab Results	7
Confirmed by Dept. of Health	9

*All positive tests must be confirmed by the Dept. of Health*

*The Florida Department of Health/Monroe County has confirmed four previous positives have successfully completed their respective quarantine period and the new positives are under quarantine.*

*Discrepancies between Positive Lab Results and those Confirmed by the Department of Health may occur when Positive Results originate from outside testing solutions.*

Thank you,
