AVIATION SAFETY INITIATIVE PROGRAM

Thank you for participating in the Ocean Reef Club's Aviation Safety Incentive Program. We know that proficiency is key to safe flight and ground operations, so we've made it easy to keep your knowledge and skills sharp.

PILOT REQUIREMENTS

Pilots must complete one of the following three proficiency levels every 12 calendar months. Simply choose a level, complete that level's requirements, and indicate the product name(s) and dates you completed the required materials. Then sign and date the form and submit it to management at least once a year to receive your reward. The higher the level completed the greater the reward.
